

FROM THE TEAK-PLANKED SWIM

platform to the automatic windlass, the 50 Flybridge is equipped with thoughtful and useful amenities to make boating fun and enjoyable. At home, whether anchored in a pristine cove, or showing off at the yacht club dock, this new Viking Sport Cruiser is versatile and appointed with luxury features.

Available with a choice of two or three staterooms, the 50 Flybridge offers flexible below deck plans, tailored to fit your needs and requirements for family boating. Two heads, each with a private shower are standard.

Triple opening sliding doors framed in polished stainless steel create a magnificent gateway from the aft deck into the salon. Cherry joinery abounds and the attention to detail is outstanding with twin settees, a

cocktail cabinet with a refrigerator, bottle and glass stowage and an entertainment system, which includes a DVD player and a 20-inch LCD television.

The lower helm provides good visibility and the dash has electronic controls, power-assisted hydraulic steering and full engine instrumentation. A factory installed electronic package is available. Opposite the helm, the galley is fitted with a solid surface counter top, under-counter refrigeration and convenient stowage throughout for supplies, silver and dinnerware.

On the flybridge, the centerline helm with companion seating is practical and allows ample room for navigation electronics. For relaxing, there is a sunpad aft and a U-shaped lounge with a table to starboard. An electric chill box keeps refreshments nearby, while the swept radar arch and raked windshield add style and excitement.

To maximize outdoor activities and fun, the flybridge offers three distinct gathering areas with dual helm seating, the U-shaped lounge and settee and plush sunpad with built-in stowage.

The lower helm is air-conditioned and provides an all weather command station suitable for day and night time running. Helm and companion seats are comfortable and adjustable with stowage underneath. Variable speed windshield wipers and washers are standard.

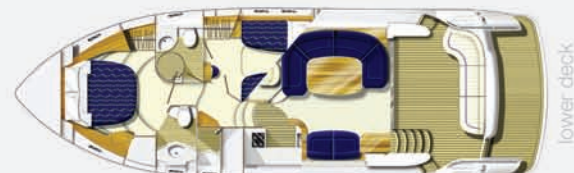

Facing settees and a family-size table set the mood for entertaining and dining at sea. Windows let in plenty of natural lighting, while three aft bulkhead sliding doors provide added openness or privacy as desired.

The master suite is spacious and inviting and features a full size walk-around berth with matching end tables. An alternative arrangement in the starboard stateroom allows for side-by-side berths.
